Improvement: Come Volunteer!

Why volunteer? (cont. from last month)

Benefit 3: Volunteering can advance your career

If you're considering a new career, volunteering can help you get experience in your area of interest and meet people in the field. Even if you're not planning on changing careers, volunteering gives you the opportunity to practice important skills used in the workplace, such as teamwork, communication, problem solving, project planning, task management, and organization. You might feel more comfortable stretching your wings at work once you've honed these skills in a volunteer position first. Teaching you valuable job skills

Just because volunteer work is unpaid does not mean the skills you learn are basic. Many volunteering opportunities provide extensive training. For example, you could become an experienced crisis counselor while volunteering for a women's shelter or a knowledgeable art historian while donating your time as a museum docent.

Volunteering can also help you build upon skills you already have and use them to benefit the greater community. For instance, if you hold a successful sales position, you raise awareness for your favorite cause as a volunteer advocate, while further developing and improving your public speaking, communication, and marketing skills.

Gaining career experience

Volunteering offers you the chance to try out a new career without making a long-term commitment. It is also a great way to gain experience in a new field. In some fields, you can volunteer directly at an organization that does the kind of work you're interested in. For example, if you're interested in nursing, you could volunteer at a hospital or a nursing home.

Your volunteer work might also expose you to

professional organizations or internships that could be of benefit to your career. When it comes to volunteering, passion and positivity are the only requirements

While learning new skills can be beneficial to many, it's not a requirement for a fulfilling volunteer experience. Bear in mind that the most valuable skills you can bring to any volunteer effort are compassion, an open mind, a willingness to do whatever is needed, and a positive attitude.

Benefit 4: Volunteering brings fun and fulfillment to your life

Volunteering is a fun and easy way to explore your interests and passions. Doing volunteer work you find meaningful and interesting can be a relaxing, energizing escape from your day-to-day routine of work, school, or family commitments. Volunteering also provides you with renewed creativity, motivation, and vision that can carry over into your personal and professional life.

Many people volunteer in order to make time for hobbies outside of work as well. For instance, if you have a desk job and long to spend time outdoors, you might consider volunteering to help plant a community garden, walk dogs for an animal shelter, or help out at a children's camp.

Consider your goals and interests

You will have a richer and more enjoyable volunteering experience if you first take some time to identify your goals and interests. Think about why you want to volunteer. What would you enjoy doing? The opportunities that match both your goals and your interests are most likely to be fun and fulfilling.

Tips for getting started

First, ask yourself if there is something specific you want to do.

For example, do I want...

...to make it better around where I live

...to meet people who are different from me

...to try something new

...to do something with my spare time
...to see a different way of life and new places

...to have a go at the type of work I might want to do as a full-time job

...to do more with my interests and hobbies

...to do something I'm good at

The best way to volunteer is to match your personality and interests. Having answers to these questions will help you narrow down your search.

Source: World Volunteer Web

How to find the right volunteer opportunity

There are numerous volunteer opportunities available. The key is to find a volunteer position that you would enjoy and are capable of doing. It's also important to make sure that your commitment matches the organization's needs. Ask yourself the following:

Would you like to work with adults, children, animals, or remotely from home?

Do you prefer to work alone or as part of a team?

Are you better behind the scenes or do you prefer to take a more visible role?

How much time are you willing to commit?

What skills can you bring to a volunteer job?

What causes are important to you?

Consider several volunteer possibilities

Don't limit yourself to just one organization or one specific type of job. Sometimes an opportunity looks great on paper, but the reality is quite different. Try to visit different organizations and get a feel for what they are like and if you click with other staff and volunteers.

Where to find volunteer opportunities

Community theatres, museums, and monuments

Libraries or senior centers

Service organizations such as Lions Clubs or Rotary Clubs

Local animal shelters, rescue organizations, or wildlife centers

To be continued next month...

Bee Well's Buzz on Health: Carbonated Soft Drinks/Sodas

Cont. from last month.....

16. Diet soda does not help you lose weight.

A University of Texas Health Science Center study found that the more diet sodas a person drank, the greater their risk of becoming overweight.

Consuming two or more cans a day increased waistlines by 500% greater than those who do not consume diet soda.

17. Diet sodas contain mold inhibitors.

They go by the names sodium benzoate or potassium benzoate, and they're used in nearly all diet sodas.

"These chemicals have the ability to cause severe damage to DNA in the mitochondria to the point that they totally inactivate it – they knock it out altogether," Peter Piper, a professor of Molecular Biology and Biotechnology at the University of Sheffield in the U.K., told a British newspaper. The preservative has also been linked to hives, asthma, and other

allergic conditions, according to the Center for Science in the Public Interest.

Editor's Note: Some companies have phased out sodium benzoate. Diet Coke and Diet Pepsi have replaced it with another preservative, potassium benzoate. Both sodium and potassium benzoate were classified by the Food Commission in the UK as mild irritants to the skin, eyes, and mucous membranes.

18. Sodas containing ascorbic acid and potassium benzoate can form benzene, a known carcinogen. **To be continued...**

Dinner....Did You Know...?

In addition to our regular Dinner at Noon routine, we have a new routine that begins at noon. Instead of just playing pretty music and displaying beautiful scenery on our big screen television, we are pretending to travel to different parts of the world as we dine. It all started when one of our members requested a video tour of Paris, her favorite city, while we were eating. From there we traveled to

Barcelona, Rome, Venice, Tokyo, and many other destinations...one place each day. We are also learning words in a new language as we 'travel'.

Dr. Schraberg gave a lecture recently and mentioned how research has shown that traveling and learning a new language is a good way to deter or delay dementia by challenging the brain in so many ways.

Come join us as a member or volunteer and help your brain!

October Breakfast Menu

Continental Breakfast 8-9

Mon	Tue	Wed	Thu	Fri	Sat./Sun.
<i>1 Pancakes Fresh Fruit</i>	<i>2 Blueberry Muffin Mixed Fruit</i>	<i>3 French Toast Fresh Fruit</i>	<i>4 Whole Wheat English Muffin Fruit</i>	<i>5 Flavored Grits Sausage Patty</i>	<i>6/7 Cereal Fresh Fruit Mix</i>

<i>29 Pancakes Fresh Fruit</i>	<i>30 Blueberry Muffin Mixed Fruit</i>	<i>31 French Toast Fresh Fruit</i>	<p>Breakfast is served with 8oz of milk and water, choice of coffee or hot or cold tea.</p>		 <p style="color: white; font-weight: bold; text-align: center;">All of our breakfasts meet dietary restrictions/ substitutions available</p>

Breakfast...A Time to Contemplate

Breakfast at Aging With Grace is a quiet time...a time to prepare for the day. We love the smell of hot coffee brewing as we make preparations for the activity that follows breakfast. We have a local morning paper available for members to look over at their leisure. Other members prefer to work a crossword or a word search. Still others like reading a morning scripture or devotional. And some just look at the pretty pictures on the big

screen television that is hooked up to the internet as they drink their beverage. We love to find a beautiful video to watch and good music (usually oldies but goodies) to listen to as we slowly wake up each morning. Not every member who comes in the morning eats with us, but we always encourage the consumption of liquids and make sure each member has bottled water in front of them as soon as they

come in and throughout the day. We love our members and know that it is good for them to drink enough water.

Please Come Join Us!

October Tea & A Tale Time Menu

Tea & A Tale Time 3:30 To 4:30

Tea & A Tale Time

Each day our afternoon tea is a time of refreshment and re-energizing with a snack and a beverage. We also cheer ourselves up with jokes and funny stories. Have you heard these?

THE STAGES OF SUCCESS

At age 4 success is...not peeing in your pants.

At age 12 success is...having friends.

At age 16 success is...having a drivers license.

At age 20 success is...having sex.

At age 35 success is...having money.

At age 50 success is...having money.

At age 60 success is...having sex.

At age 70 success is...having a drivers license.

At age 75 success is...having friends.

At age 80 success is...not peeing in your pants

LOOKING GOOD

My face in the mirror isn't wrinkled or drawn.

My house isn't dirty. The cobwebs are gone.

My garden looks lovely and so does my lawn.

I think I might never put my glasses back on.
