April is National Earth Day Month, World Autism Awareness Month, National Minority Health Awareness and Stress Awareness Month. April is all about new beginnings, growth and transformation. If life hands you lemons, embrace these concepts, find inner peace and contentment. Let go of past pain and hurts, embrace the present and look forward to the future, with hope and optimism.

Ancient Greek tragedian Aeschylus wrote:
"There is no pain so great, as the memory of joy
in present grief".

April is the month of inner peace...
as the birds do not worry about finding worms to eat, we
shouldn't worry either. Dr. Maya Angelou reminds us...
when she said...

♥ "I know for sure that love saves us and we must
create space for love"...part of that love is
self-care, do something nice , just
for yourself this month ♥
